"From the shores of the Atlantic Ocean to the serenity of the Pine Barrens."

EMERGENCY REVERSE 911

Emergency Reverse 911 is a new service being offered by Berkeley Township. This emergency notification system gives those in charge of public safety a chance to reach out to the public in case of an extended power failure or other emergency event in the community. Combined with other emergency alert methods, it is designed to get emergency messages to you quickly and effectively. This does not preclude you from calling 911 if you need emergency information, but provides an opportunity to have critical information passed on to you when the need arises. Anyone with medical problems is encouraged to take advantage of this program, especially if you are in need of oxygen, use a nebulizer, need dialysis, etc. Berkeley Township will maintain a constantly updated database of all land-line telephone numbers registered to its residents and would like to gather cell phone numbers and e-mail addresses.

EMERGENCY REVERSE 911 NOTIFICATION FORM

NAME _____

STREET ADDRESS AND COMMUNITY _____

TELEPHONE NO. _____ CELL PHONE NO. _____

ALTERNATE TELEPHONE NO. _____
